## **NAREIT FFO Guidance**

The Company's updated 2016 NAREIT FFO guidance includes incurred costs of approximately \$0.06 - \$0.08 per diluted share associated with the Merger, but excludes any future transaction costs.

The Company's 2017 NAREIT FFO guidance excludes all estimated transaction costs related to the Merger.

## **Update on Investment Activity**

### *Property Transactions*

During December 2016, Regency and a co-investment partner acquired Plaza Venezia, a 200,000 square foot Publix-anchored shopping center located in Orlando, FL, for a gross purchase price of \$92.5 million. Regency's share of the purchase price was \$18.5 million. A secured mortgage of \$36.5 million was assumed at closing. Regency's share of the debt was \$7.3 million.

Also during December, Regency closed on two dispositions. The Company sold Shorewood Crossing, a 175,000 square foot shopping center located in Chicago, IL and anchored by Mariano's Fresh Market, for \$32.5 million. Regency's share of the sales price was \$6.5 million. Pima Crossing, a 238,000 square foot wholly owned shopping center located in Scottsdale, AZ and anchored by Golf and Tennis Pro Shop and Stein Mart, was also sold for \$46.2 million. Both properties were unencumbered.

### *Developments and Redevelopments*

During December, Regency started the development of two projects with estimated net development costs totaling \$101.8 million. The first, Chimney Rock Crossing, is a 218,000 square foot center located in the New York metro area, within the affluent Somerset County, NJ. With estimated net development costs of \$71.2 million, Chimney Rock Crossing will be anchored by Whole Foods Market, Nordstrom Rack, The Container Store, and Saks Off 5<sup>th</sup>. The second development start, The Village at Riverstone, is a 165,000 square foot center located within Houston's fastest growing master-planned community of Riverstone. Anchored by a 100,000 square foot Kroger, The Village at Riverstone has estimated net development costs of \$30.6 million.

Also during December, the Company started redevelopment projects with expected total project costs of \$9.4 million.

### Non-GAAP Disclosure

The Company uses certain non-GAAP performance measures, in addition to the required GAAP presentations, as it believes these measures improve the understanding of the Company's operational results. Regency manages its entire real estate portfolio without regard to ownership structure, although certain decisions impacting properties owned through partnerships require partner approval. Therefore, the Company believes presenting its pro-rata share of operating results regardless of ownership structure, along with other non-GAAP measures, makes comparisons of other REITs' operating results to the Company's more meaningful. Management continually evaluates the usefulness, relevance, limitations, and calculation of the Company's reported non-GAAP performance measures to determine how best to provide relevant information to the public, and thus such reported measures could change.

NAREIT FFO is a commonly used measure of REIT performance, which the National Association of Real Estate Investment Trusts ("NAREIT") defines as net income, computed in accordance with GAAP, excluding gains and losses from dispositions of depreciable property, net of tax, excluding operating real estate impairments, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Regency computes NAREIT FFO for all periods presented in accordance with NAREIT's definition. Many companies use different depreciable lives and methods, and real estate values historically fluctuate with market conditions. Since NAREIT FFO excludes depreciation and amortization and gains and losses from depreciable property dispositions, and impairments, it can provide a performance measure that, when compared year over year, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, acquisition and development activities, and financing costs. This provides a perspective of the Company's financial performance not

immediately apparent from net income determined in accordance with GAAP. Thus, NAREIT FFO is a supplemental non-GAAP financial measure of the Company's operating performance, which does not represent cash generated from operating activities in accordance with GAAP and therefore, should not be considered a substitute measure of cash flows from operations. Core FFO is an additional performance measure used by Regency as the computation of NAREIT FFO includes certain non-cash and non-comparable items that affect the Company's period-over-period performance. Core FFO excludes from NAREIT FFO, but is not limited to: (a) transaction related gains, income or expense; (b) impairments on land; (c) gains or losses from the early extinguishment of debt; and (d) other non-core amounts as they occur. The Company provides a reconciliation of NAREIT FFO to Core FFO. NAREIT FFO and Core FFO are non-GAAP financial measures and should not be considered independently, or as a substitute, for financial information presented in accordance with GAAP.
