### Regency's Future Commitments:

Regency remains focused on each of its four corporate responsibility pillars and aims to set goals that provide transparency and accountability. With its 2021 goals met or exceeded, Regency is reshaping its strategy and refining its commitments. For example, the 2021 Corporate Responsibility Report introduces new short-and-long-term goals to advance Regency's environmental sustainability efforts, specifically to deepen the Company's commitments to reduce its carbon footprint. The new goals include a commitment to reduce the Company's Scope 1 and 2 GHG emissions by 28% by 2030 from a 2019 baseline year, endorsed by the SBTi, and a long-term goal to achieve net-zero Scope 1 and 2 GHG emissions across all operations by 2050. Other new or refined environmental goals include commitments around energy efficiency, renewable energy, water consumption, waste management, and electric vehicle charging stations at the Company's shopping centers. The 2021 report also introduces new goals within the Company's other three corporate responsibility pillars: Our People, Our Communities, and Ethics & Governance.
