Forward-Looking Statements

Certain statements in this document regarding anticipated financial, business, legal or other outcomes including business and market conditions, outlook and other similar statements relating to Regency's future events, developments, or financial or operational performance or results such as our 2022 Guidance, are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as "may," "will," "should," "expect," "estimate," "believe," "intend," "forecast," "anticipate," "guidance," and other similar language. However, the absence of these or similar words or expressions does not mean a statement is not forward-looking. While we believe these forward-looking statements are reasonable when made, forward-looking statements are not guarantees of future performance or events and undue reliance should not be placed on these statements. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance these expectations will be attained, and it is possible actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks and uncertainties. Our operations are subject to a number of risks and uncertainties including, but not limited to, those risk factors described in our SEC filings. When considering an investment in our securities, you should carefully read and consider these risks, together with all other information in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and our other filings and submissions to the SEC. If any of the events described in the risk factors actually occur, our business, financial condition or operating results, as well as the market price of our securities, could be materially adversely affected. Forward-looking statements are only as of the date they are made, and Regency undertakes no duty to update its forward-looking statements except as required by law. These risks and events include, without limitation:

Risk Factors Relating to Current Economic Conditions

Rising interest rates, as we have seen in 2022, may adversely affect the cost of and our ability to borrow, the valuation of our real estate, and our stock price. Current economic conditions and challenges may adversely impact our tenants, and, therefore, our ability to lease space and the level of rent we may be able to charge.

Risk Factors Related to Pandemics or other Health Crises

Pandemics or other health crises, such as the COVID-19 pandemic, may adversely affect our tenants' financial condition, the profitability of our properties, and our access to the capital markets and could have a material adverse effect on our business, results of operations, cash flows and financial condition.

Risk Factors Related to Operating Retail-Based Shopping Centers

Economic and market conditions may adversely affect the retail industry and consequently reduce our revenues and cash flow, and increase our operating expenses. Shifts in retail trends, sales, and delivery methods between brick and mortar stores, e-commerce, home delivery, and curbside pick-up may adversely impact our revenues and cash flows. Changing economic and retail market conditions in geographic areas where our properties are concentrated may reduce our revenues and cash flow. In addition, labor challenges and supply delays and shortages due to a variety of macroeconomic factors, including inflationary pressures, could affect the retail industry. Our success depends on the continued presence and success of our "anchor" tenants. A significant percentage of our revenues are derived from smaller "shop space" tenants and our net income may be adversely impacted if our smaller shop tenants are not successful. We may be unable to collect balances due from tenants in bankruptcy. Many of our costs and expenses associated with operating our properties may remain constant or increase, even if our lease income decreases. Compliance with the Americans with Disabilities Act and fire, safety and other regulations may have a negative effect on us.

Risk Factors Related to Real Estate Investments

Our real estate assets may decline in value and be subject to impairment losses which may reduce our net income. We face risks associated with development, redevelopment and expansion of properties. We face risks associated with the development of mixed-use commercial properties. We face risks associated with the acquisition of properties. We may be unable to sell properties when desired because of market conditions. Changes in tax laws could impact our acquisition or disposition of real estate.

Risk Factors Related to the Environment Affecting Our Properties

Climate change may adversely impact our properties directly, and may lead to additional compliance obligations and costs as well as additional taxes and fees. Geographic concentration of our properties makes our business more vulnerable to natural disasters, severe weather conditions and climate change. Costs of environmental remediation may impact our financial performance and reduce our cash flow.

Risk Factors Related to Corporate Matters

An increased focus on metrics and reporting relating to environmental, social, and governance ("ESG") factors may impose additional costs and expose us to new risks. An uninsured loss or a loss that exceeds the insurance coverage on our properties may subject us to loss of capital and revenue on those properties. Failure to attract and retain key personnel may adversely affect our business and operations. The unauthorized access, use, theft or destruction of tenant or employee personal, financial or other data or of Regency's proprietary or confidential information stored in our information systems or by third parties on our behalf could impact our reputation and brand and expose us to potential liability and loss of revenues.

Risk Factors Related to Our Partnerships and Joint Ventures

We do not have voting control over all of the properties owned in our co-investment partnerships and joint ventures, so we are unable to ensure that our objectives will be pursued. The termination of our partnerships may adversely affect our cash flow, operating results, and our ability to make distributions to stock and unit holders.

Risk Factors Related to Funding Strategies and Capital Structure

Our ability to sell properties and fund acquisitions and developments may be adversely impacted by higher market capitalization rates and lower NOI at our properties which may dilute earnings. We depend on external sources of capital, which may not be available in the future on favorable terms or at all. Our debt financing may adversely affect our business and financial condition. Covenants in our debt agreements may restrict our operating activities and adversely affect our financial condition. Increases in interest rates would cause our borrowing costs to rise and negatively impact our results of operations. Hedging activity may expose us to risks, including the risks that a counterparty will not perform and that the hedge will not yield the economic benefits we anticipate, which may adversely affect us. The interest rates on our Unsecured Credit facilities as well as on our variable rate mortgages and interest rate swaps might change based on changes to the method in which LIBOR or its replacement rate is determined.

Risk Factors Related to the Market Price for Our Securities

Changes in economic and market conditions may adversely affect the market price of our securities. There is no assurance that we will continue to pay dividends at historical rates.

Risk Factors Relating to the Company's Qualification as a REIT

If the Company fails to qualify as a REIT for federal income tax purposes, it would be subject to federal income tax at regular corporate rates. Dividends paid by REITs generally do not qualify for reduced tax rates. Certain foreign stockholders may be subject to U.S. federal income tax on gain recognized on a disposition of our common stock if we do not qualify as a "domestically controlled" REIT. Legislative or other actions affecting REITs may have a negative effect on us. Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities.

Risk Factors Related to the Company's Common Stock

Restrictions on the ownership of the Company's capital stock to preserve its REIT status may delay or prevent a change in control. The issuance of the Company's capital stock may delay or prevent a change in control. Ownership in the Company may be diluted in the future.

Regency Centers Reports Third Quarter 2022 Results

JACKSONVILLE, Fla. (November 3, 2022) – Regency Centers Corporation (“Regency” or the “Company”) (Nasdaq: REG) today reported financial and operating results for the period ended September 30, 2022 and provided updated 2022 earnings guidance. For the three months ended September 30, 2022 and 2021, Net Income was \$0.51 per diluted share and \$0.69 per diluted share, respectively.

Third Quarter 2022 Highlights

- Reported Nareit FFO of \$1.01 per diluted share and Core Operating Earnings of \$0.94 per diluted share for the third quarter
- Raised 2022 Nareit FFO guidance to a range of \$4.00 to \$4.03 per diluted share
- Raised 2022 Core Operating Earnings guidance to a range of \$3.75 to \$3.78 per diluted share, representing a 7% year-over-year increase at the midpoint excluding prior year collections
- Increased Same Property NOI excluding lease termination fees and prior year collections by 2.6% during the third quarter over the same period a year ago
- Increased Same Property percent leased by 20 basis points sequentially to 94.7%, and Same Property small shop percent leased by 40 basis points sequentially to 91.4%
- Executed quarterly volume of 2.3 million square feet of comparable new and renewal leases during the third quarter at a blended cash rent spread of +7.0%
- Net project costs for Regency’s in-process development and redevelopment projects were approximately \$398 million as of September 30, 2022
- Achieved pro-rata net debt-to-operating EBITDA_{re} of 5.0x as of September 30, 2022
- In September, Moody’s Investors Service affirmed its Baa1 senior unsecured debt rating for Regency and revised its outlook from stable to positive
- Subsequent to quarter end, on October 12, 2022, completed the acquisition of East Meadow Plaza in East Meadow, NY at a gross purchase price of \$30 million at Regency’s share
- Subsequent to quarter end, on November 2, 2022, Regency’s Board of Directors (the “Board”) declared a quarterly cash dividend on the Company’s common stock of \$0.65 per share, an increase of 4% from the prior quarterly dividend

“We are pleased to report another quarter of solid results, and remain encouraged by continued robust tenant demand and overall operating trends. While the macroeconomic backdrop is more challenging today, Regency is well-positioned given the demographic profile of our shopping centers, our value creation expertise, and the strength of our balance sheet to weather economic storms,” said Lisa Palmer, President and Chief Executive Officer. “With solid contractual rent growth, mark-to-market upside in our leases, room to further grow occupancy, and execution on our self-funded development and redevelopment strategy, we are positioned to continue to drive solid and sustainable growth.”

Financial Results

Net Income

- For the three months ended September 30, 2022, Net Income Attributable to Common Stockholders (“Net Income”) was \$87.6 million, or \$0.51 per diluted share, compared to Net Income of \$117.4 million, or \$0.69 per diluted share, for the same period in 2021.

The Company has published forward-looking statements and additional financial information in its third quarter 2022 supplemental package that may help investors estimate earnings. A copy of the Company's third quarter 2022 supplemental package will be available on the Company's website at investors.regencycenters.com or by written request to: Investor Relations, Regency Centers Corporation, One Independent Drive, Suite 114, Jacksonville, Florida, 32202. The supplemental package contains more detailed financial and property results including financial statements, an outstanding debt summary, acquisition and development activity, investments in partnerships, information pertaining to securities issued other than common stock, property details, a significant tenant rent report and a lease expiration table in addition to earnings and valuation guidance assumptions. The information provided in the supplemental package is unaudited and includes non-GAAP measures, and there can be no assurance that the information will not vary from the final information in the Company's Form 10-Q for the period ended September 30, 2022. Regency may, but assumes no obligation to, update information in the supplemental package from time to time.

###

Non-GAAP Disclosure

We believe these non-GAAP measures provide useful information to our Board of Directors, management and investors regarding certain trends relating to our financial condition and results of operations. Our management uses these non-GAAP measures to compare our performance to that of prior periods for trend analyses, purposes of determining management incentive compensation and budgeting, forecasting and planning purposes.

We do not consider non-GAAP measures an alternative to financial measures determined in accordance with GAAP, rather they supplement GAAP measures by providing additional information we believe to be useful to our shareholders. The principal limitation of these non-GAAP financial measures is they may exclude significant expense and income items that are required by GAAP to be recognized in our consolidated financial statements. In addition, they reflect the exercise of management's judgment about which expense and income items are excluded or included in determining these non-GAAP financial measures. In order to compensate for these limitations, reconciliations of the non-GAAP financial measures we use to their most directly comparable GAAP measures are provided. Non-GAAP financial measures should not be relied upon in evaluating the financial condition, results of operations or future prospects of the Company.

Nareit FFO is a commonly used measure of REIT performance, which the National Association of Real Estate Investment Trusts ("Nareit") defines as net income, computed in accordance with GAAP, excluding gains on sale and impairments of real estate, net of tax, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Regency computes Nareit FFO for all periods presented in accordance with Nareit's definition. Since Nareit FFO excludes depreciation and amortization and gains on sales and impairments of real estate, it provides a performance measure that, when compared year over year, reflects the impact on operations from trends in percent leased, rental rates, operating costs, acquisition and development activities, and financing costs. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP. Thus, Nareit FFO is a supplemental non-GAAP financial measure of the Company's operating performance, which does not represent cash generated from operating activities in accordance with GAAP; and, therefore, should not be considered a substitute measure of cash flows from operations. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to Nareit FFO.

Core Operating Earnings is an additional performance measure that excludes from Nareit FFO: (i) transaction related income or expenses; (ii) gains or losses from the early extinguishment of debt; (iii) certain non-cash components of earnings derived from above and below market rent amortization, straight-line rents, and amortization of mark-to-market of debt adjustments; and (iv) other amounts as they occur. The Company provides a reconciliation of Net Income to Nareit FFO to Core Operating Earnings.

Forward-Looking Statements

Certain statements in this document regarding anticipated financial, business, legal or other outcomes including business and market conditions, outlook and other similar statements relating to Regency's future events, developments, or financial or operational performance or results such as our 2022 Guidance, are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. These forward-looking statements are identified by the use of words such as "may," "will," "should," "expect," "estimate," "believe," "intend," "forecast," "anticipate," "guidance," and other similar language. However, the absence of these or similar words or expressions does not mean a statement is not forward-looking. While we believe these forward-looking statements are reasonable when made, forward-looking statements are not guarantees of future performance or events and undue reliance should not be placed on these statements. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance these expectations will be attained, and it is possible actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks and uncertainties. Our operations are subject to a number of risks and uncertainties including, but not limited to, those risk factors described in our SEC filings. When considering an investment in our securities, you should carefully read and consider these risks, together with all other information in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and our other filings and submissions to the SEC. If any of the events described in the risk factors actually occur, our business, financial condition or operating results, as well as the market price of our securities, could be materially adversely affected. Forward-looking statements are only as of the date they are made, and Regency undertakes no duty to update its forward-looking statements except as required by law. These risks and events include, without limitation:

Risk Factors Relating to Current Economic Conditions

Rising interest rates, as we have seen in 2022, may adversely affect the cost of and our ability to borrow, the valuation of our real estate, and our stock price. Current economic conditions and challenges may adversely impact our tenants and, therefore, our ability to lease space and the level of rent we may be able to charge.

Risk Factors Related to Pandemics or other Health Crises

Pandemics or other health crises, such as the COVID-19 pandemic, may adversely affect our tenants' financial condition, the profitability of our properties, and our access to the capital markets and could have a material adverse effect on our business, results of operations, cash flows and financial condition.

Risk Factors Related to Operating Retail-Based Shopping Centers

Economic and market conditions may adversely affect the retail industry and consequently reduce our revenues and cash flow, and increase our operating expenses. Shifts in retail trends, sales, and delivery methods between brick and mortar stores, e-commerce, home delivery, and curbside pick-up may adversely impact our revenues and cash flows. Changing economic and retail market conditions in geographic areas where our properties are concentrated may reduce our revenues and cash flow. In addition, labor challenges and supply delays and shortages due to a variety of macroeconomic factors, including inflationary pressures, could affect the retail industry. Our success depends on the continued presence and success of our “anchor” tenants. A significant percentage of our revenues are derived from smaller “shop space” tenants and our net income may be adversely impacted if our smaller shop tenants are not successful. We may be unable to collect balances due from tenants in bankruptcy. Many of our costs and expenses associated with operating our properties may remain constant or increase, even if our lease income decreases. Compliance with the Americans with Disabilities Act and fire, safety and other regulations may have a negative effect on us.

Risk Factors Related to Real Estate Investments

Our real estate assets may decline in value and be subject to impairment losses which may reduce our net income. We face risks associated with development, redevelopment and expansion of properties. We face risks associated with the development of mixed-use commercial properties. We face risks associated with the acquisition of properties. We may be unable to sell properties when desired because of market conditions. Changes in tax laws could impact our acquisition or disposition of real estate.

Risk Factors Related to the Environment Affecting Our Properties

Climate change may adversely impact our properties directly, and may lead to additional compliance obligations and costs as well as additional taxes and fees. Geographic concentration of our properties makes our business more vulnerable to natural disasters, severe weather conditions and climate change. Costs of environmental remediation may impact our financial performance and reduce our cash flow.

Risk Factors Related to Corporate Matters

An increased focus on metrics and reporting relating to environmental, social, and governance (“ESG”) factors may impose additional costs and expose us to new risks. An uninsured loss or a loss that exceeds the insurance coverage on our properties may subject us to loss of capital and revenue on those properties. Failure to attract and retain key personnel may adversely affect our business and operations. The unauthorized access, use, theft or destruction of tenant or employee personal, financial or other data or of Regency’s proprietary or confidential information stored in our information systems or by third parties on our behalf could impact our reputation and brand and expose us to potential liability and loss of revenues.

Risk Factors Related to Our Partnerships and Joint Ventures

We do not have voting control over all of the properties owned in our co-investment partnerships and joint ventures, so we are unable to ensure that our objectives will be pursued. The termination of our partnerships may adversely affect our cash flow, operating results, and our ability to make distributions to stock and unit holders.

Risk Factors Related to Funding Strategies and Capital Structure

Our ability to sell properties and fund acquisitions and developments may be adversely impacted by higher market capitalization rates and lower NOI at our properties which may dilute earnings. We depend on external sources of capital, which may not be available in the future on favorable terms or at all. Our debt financing may adversely affect our business and financial condition. Covenants in our debt agreements may restrict our operating activities and adversely affect our financial condition. Increases in interest rates would cause our borrowing costs to rise and negatively impact our results of operations. Hedging activity may expose us to risks, including the risks that a counterparty will not perform and that the hedge will not yield the economic benefits we anticipate, which may adversely affect us. The interest rates on our Unsecured Credit facilities as well as on our variable rate mortgages and interest rate swaps might change based on changes to the method in which LIBOR or its replacement rate is determined.

Risk Factors Related to the Market Price for Our Securities

Changes in economic and market conditions may adversely affect the market price of our securities. There is no assurance that we will continue to pay dividends at historical rates.

Risk Factors Relating to the Company’s Qualification as a REIT

If the Company fails to qualify as a REIT for federal income tax purposes, it would be subject to federal income tax at regular corporate rates. Dividends paid by REITs generally do not qualify for reduced tax rates. Certain foreign stockholders may be subject to U.S. federal income tax on gain recognized on a disposition of our common stock if we do not qualify as a “domestically controlled” REIT. Legislative or other actions affecting REITs may have a negative effect on us. Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities.

Risk Factors Related to the Company’s Common Stock

Restrictions on the ownership of the Company’s capital stock to preserve its REIT status may delay or prevent a change in control. The issuance of the Company’s capital stock may delay or prevent a change in control. Ownership in the Company may be diluted in the future.

In-Process Development and Redevelopment Descriptions	
Ground-up Developments	
Carytown Exchange - Phase I & II	Located in Richmond's most desirable retail corridor, Carytown is a ground-up development anchored by Publix and complemented by street retail and structured parking. The Publix, Shop Bldg B, Shop Bldg E, and structured parking are now complete. Phase II commenced in 2Q21, and includes further value creation in the form of two additional multi-tenant buildings (Shop Bldgs A & C) totaling 36k SF.
East San Marco	Located in one of the most desirable areas of Jacksonville, FL, East San Marco is an infill ground-up retail development anchored by Publix. In addition, an adjacent parcel sold in August 2021 to a residential builder for housing.
Glenwood Green	Located in Old Bridge, NJ and situated on Route 9, Glenwood Green is a 355k SF ground-up development anchored by Target, ShopRite and a medical office building.
Eastfield at Baybrook	Phase 1B of ground-up development in Houston, TX. The scope for Phase 1B calls for in-line shop space & outparcels for ground lease, representing approximately 50K SF. Combined with the previously completed Phase 1A, which features the market's leading grocer, H.E.B., Baybrook East will be approximately 156K SF.
Redevelopments	
The Crossing Clarendon	Redevelopment of vacant, four-story, 1960's-era office building into a modern 129k SF mixed-use "Loft" building to complement the existing dominant, mixed-use center in Arlington, VA. The building will include ground floor retail and 110k SF of space leased to high-end health club Life Time.
The Abbot	Generational redevelopment and modernization of three historic buildings in the heart of Harvard Square into an unparalleled mixed-use project with flagship retail and Class A office space.
Preston Oaks	Redevelopment includes substantial rebuild following tornado damage of a 103k SF, anchored by H.E.B. Central Market shopping center, and located in Dallas, TX. Redevelopment spend is reimbursable through insurance proceeds.
Serramonte Center	Redevelopment includes continued enhancement of a Class A mall in a premier location that includes the addition of new retail that will augment the evolving merchandising mix, redevelopment of the former J.C. Penney space, and additional redevelopment considerations in the northwest portion of the site. Redevelopment represents multiple phases occurring over approximately four years, with expected stabilization around 2026.
Westbard Square Phase I	Existing property includes a Giant-anchored retail center, a 3-level office building, two gas stations, and a vacant senior housing building. Phase I of the redevelopment will include construction of a 123k SF retail building anchored by a 70k SF Giant, and realignment of Westbard Avenue at the intersection with River Road. Regency will also participate in a joint venture whereby the partner will construct a ~100-unit senior living building.
Buckhead Landing	Buckhead Landing will be anchored by a 55k SF Publix with 38k SF of junior anchors and 57k SF of restaurant & retail space. This redevelopment will include the complete scrape and rebuild of the existing anchor box, in addition to delivering extensive site improvements and enhanced placemaking.
Various Redevelopments (est costs < \$10 million individually)	Various Redevelopment properties where estimated incremental costs at each project are less than \$10 million.

(1) - Scope, economics and timing of development and redevelopment projects could change materially from estimates provided.

(2) - Ground-up development or redevelopment that is excluded from the Same Property NOI pool.

(3) - Carytown and Glenwood Green estimated costs represent Regency's pro-rata share of 64% and 70%, respectively.

(4) - GLA and % Leased for The Crossing Clarendon represents the office building only, and Westbard Square Phase I represents phase I only.

(5) - Estimated costs are net of expected land sale proceeds of \$50m. Combined net project costs for phase I and future phases are expected to be \$80m - \$90m with an incremental yield of 6% - 7%. Future phase(s) will include ~200 units of apartments, 44k SF of additional retail, and ~100 for-sale townhomes.

Note: Regency's Estimate of Net GAAP Project Costs, after additional interest and overhead capitalization, are \$437,859 for Ground-up Developments and Redevelopments In-Process. Percent of costs incurred is 61% for Ground-up Developments and Redevelopments In-Process.

(a) Center GLA represents 100% of the owned GLA at the property, unless footnoted otherwise

(b) Estimated Initial Rent Commencement represents the estimated date that the anchor or first tenants at each project will rent commence.

(c) Estimated Stabilization Year represents the estimated year that the project will reach the stated stabilized yield on an annualized basis.

(d) A stabilized yield for a redevelopment property represents the incremental NOI (estimated stabilized NOI less NOI prior to project commencement) divided by the total project costs.

Notes:

- Represents Regency's wholly owned and pro-rata share of co-investment partnerships.
- All amounts reported at execution.
- Number of leasing transactions and GLA leased reported at 100%; All other statistics reported at pro-rata share.
- Rent spreads are calculated on a comparable-space, cash basis for new and renewal leases executed and include all leasing transactions, including spaces vacant > 12 months.
- Rent Spreads % (Cash) represent the percentage change between the initial 12 months of rent of the executed lease and the rent over the last 12 months of the prior lease.
- Rent Spreads % (Straight-lined) represent the percentage change between the average rent over the duration of the executed lease and the average rent over the duration of the prior lease.
- Tenant Allowance & Landlord Work are costs required to make the space leasable and include improvements of a space as it relates to a specific lease. These costs include tenant improvements and inducements.
- Excludes Non-Retail Properties

- (1) Includes pro-rata share of straight line rent on lease income, net of uncollectible amounts, and above/below market rent amortization.
- (2) Represents Base Rent and Recoveries deemed uncollectible associated with billings during the nine months ended September 30, 2022.
- (3) The Company accounts for deferrals and abatements that significantly increase the consideration due under the lease (those that do not qualify for the FASB COVID-19 lease concession guidance) as a lease modification, in accordance with ASC 842. Under a lease modification, Lease income is reduced by the amount of the deferral or abatement in the period in which it was granted, and any previous uncollectible lease income associated with that deferral or abatement is reversed.
- (4) Represents the collection of Base Rent and Recoveries previously reserved during the years ended December 31, 2020, and December 31, 2021.
- (5) Other receivables include construction receivables, insurance receivables and amounts due from real estate partnerships for management, transaction and other fee income.
- (6) Represents executed deferral agreements that have yet to be rebilled, as of September 30, 2022.

Please refer to the documents filed by Regency Centers Corporation with the SEC, specifically the most recent reports on forms 10K and 10Q, which identify important risk factors which could cause actual results to differ from those contained in the forward-looking statements.

Glossary of Terms

September 30, 2022

Core Operating Earnings: An additional performance measure used by Regency because the computation of Nareit FFO includes certain non-comparable items that affect the Company's period-over-period performance. Core Operating Earnings excludes from Nareit FFO: (i) transaction related income or expenses (ii) gains or losses from the early extinguishment of debt; (iii) certain non-cash components of earnings derived from above and below market rent amortization, straight-line rents, and amortization of mark-to-market debt adjustments; and (iv) other amounts as they occur. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to Nareit FFO to Core Operating Earnings.

Development Completion: A Property in Development is deemed complete upon the earlier of (i) 90% of total estimated net development costs have been incurred and percent leased equals or exceeds 95%, or (ii) the property features at least two years of anchor operations. Once deemed complete, the property is termed a Retail Operating Property the following calendar year.

Fixed Charge Coverage Ratio: Operating EBITDA_{re} divided by the sum of the gross interest and scheduled mortgage principal paid to our lenders.

Nareit Funds From Operations (Nareit FFO): Nareit FFO is a commonly used measure of REIT performance, which the National Association of Real Estate Investment Trusts ("Nareit") defines as net income, computed in accordance with GAAP, excluding gains on sales and impairments of real estate, net of tax, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Regency computes Nareit FFO for all periods presented in accordance with Nareit's definition. Many companies use different depreciable lives and methods, and real estate values historically fluctuate with market conditions. Since Nareit FFO excludes depreciation and amortization and gains on sale and impairments of real estate, it provides a performance measure that, when compared year over year, reflects the impact on operations from trends in percent leased, rental rates, operating costs, acquisition and development activities, and financing costs. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP. Thus, Nareit FFO is a supplemental non-GAAP financial measure of the Company's operating performance, which does not represent cash generated from operating activities in accordance with GAAP; and, therefore, should not be considered a substitute measure of cash flows from operations. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to Nareit FFO.

Net Operating Income (NOI): The sum of base rent, percentage rent, recoveries from tenants, other lease income, and other property income, less operating and maintenance expenses, real estate taxes, ground rent, and uncollectible lease income. NOI excludes straight-line rental income and expense, above and below market rent and ground rent amortization, tenant lease inducement amortization, and other fees. The Company also provides disclosure of NOI excluding termination fees, which excludes both termination fee income and expenses.

Non-Same Property: During either calendar year period being compared, a property acquired, sold, a Property in Development, a Development Completion, or a property under, or being positioned for, significant redevelopment that distorts comparability between periods. Non-retail properties and corporate activities, including the captive insurance program, are part of Non-Same Property. Please refer to the footnote on Property Summary Report for Non-Same Property detail.

Operating EBITDA_{re}: Nareit EBITDA_{re} is a measure of REIT performance, which the Nareit defines as net income, computed in accordance with GAAP, excluding (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains on sales of real estate; (v) impairments of real estate; and (vi) adjustments to reflect the Company's share of unconsolidated partnerships and joint ventures. Operating EBITDA_{re} excludes from Nareit EBITDA_{re} certain non-cash components of earnings derived from above and below market rent amortization and straight-line rents. The Company provides a reconciliation of Net Income to Nareit EBITDA_{re} to Operating EBITDA_{re}.

Property In Development: Properties in various stages of ground-up development.

Property In Redevelopment: Retail Operating Properties under redevelopment or being positioned for redevelopment. Unless otherwise indicated, a Property in Redevelopment is included in the Same Property pool.

Retail Operating Property: Any retail property not termed a Property In Development. A retail property is any property where the majority of the income is generated from retail uses.

Redevelopment Completion: A Property in Redevelopment is deemed complete upon the earlier of (i) 90% of total estimated project costs have been incurred and percent leased equals or exceeds 95% for the company owned GLA related to the project, or (ii) the property features at least two years of anchor operations, if applicable.

Same Property: Retail Operating Properties that were owned and operated for the entirety of both calendar year periods being compared. This term excludes Property in Development, prior year Development Completions, and Non-Same Properties. Property in Redevelopment is included unless otherwise indicated.
