Accounting and Disclosure Changes

FASB Accounting Standards Codification - Topic 842 (Leases) ("Leases Standard")

Effective January 1, 2019, Regency adopted Accounting Standards Codification (ASC) Topic 842, Leases, under the modified retrospective transition approach allowing for initial application at the date of adoption. The Company also elected to reclassify the prior period amounts to conform to the current year presentation. The financial statements have been impacted as follows:

Consolidated Statements of Operations

- All lease income earned pursuant to tenant leases in 2019, and as reclassified for 2018, which includes but is not limited to Base rent, Recoveries from tenants and Percentage rent, is reflected in Lease income.
- Lease income is presented net of revenues deemed uncollectible for the current period. Prior period presentation of this line item was included in Operating expenses as Provision for doubtful
- Real estate revenues earned not specific to tenant leases in 2019 have been reclassified from Recoveries from tenants and other income to Other property income.
- Indirect internal leasing and legal costs associated with the execution of lease agreements that were previously capitalized are expensed in General and administrative in Operating expenses in the current period.

Consolidated Balance Sheets

Addition of Lease liabilities and corresponding Right of use assets, net of or including the opening balance for straight line rent and above/below market intangibles, for its ground and office leases where Regency is the lessee.

NAREIT Funds from Operations

Regency prospectively adopted the NAREIT FFO White Paper - 2018 Restatement ("2018 FFO Whitepaper"), and elected the option of excluding gains on the sale and impairments of land from NAREIT FFO, which are considered incidental to the Company's main business. Prior period amounts were not restated to conform to the current year presentation of NAREIT FFO, and therefore include gains on sales and impairments of land.

Non-GAAP Disclosures

We use certain non-GAAP performance measures, in addition to the required GAAP presentations, as we believe these measures improve the understanding of the Company's operational results. We manage our entire real estate portfolio without regard to ownership structure, although certain decisions impacting properties owned through partnerships require partner approval. Therefore, we believe presenting our pro-rata share of operating results regardless of ownership structure, along with other non-GAAP measures, makes comparisons of other REITs' operating results to the Company's more meaningful. We continually evaluate the usefulness, relevance, limitations, and calculation of our reported non-GAAP performance measures to determine how best to provide relevant information to the public, and thus such reported measures could change.

The pro-rata information provided is not, and is not intended to be, presented in accordance with GAAP. The pro-rata supplemental details of assets and liabilities and supplemental details of operations reflect our proportionate economic ownership of the assets, liabilities and operating results of the properties in our portfolio, regardless of ownership structure.

Disclosures

June 30, 2019

- The items labeled as "Consolidated" are prepared on a basis consistent with the Company's
 consolidated financial statements as filed with the SEC on the most recent Form 10-Q or 10-K, as
 applicable.
- The columns labeled "Share of JVs" represent our ownership interest in our unconsolidated (equity method) investments in real estate partnerships, and was derived on a partnership by partnership basis by applying to each financial statement line item our ownership percentage interest used to arrive at our share of investments in real estate partnerships and equity in income or loss of investments in real estate partnerships during the period when applying the equity method of accounting to each of our unconsolidated co-investment partnerships.
- A similar calculation was performed for the amounts in columns labeled "Noncontrolling Interests", which represent the limited partners' interests in consolidated partnerships attributable to each financial statement line item.

We do not control the unconsolidated investment partnerships, and the presentations of the assets and liabilities and revenues and expenses do not necessarily represent our legal claim to such items. The partners are entitled to profit or loss allocations and distributions of cash flows according to the operating agreements, which provide for such allocations according to their invested capital. Our share of invested capital establishes the ownership interest we use to prepare our pro-rata share.

The presentation of pro-rata financial information has limitations as an analytical tool. Some of these limitations include, but are not limited to the following:

- The amounts shown on the individual line items were derived by applying our overall economic ownership interest percentage determined when applying the equity method of accounting or allocating noncontrolling interests, and do not necessarily represent our legal claim to the assets and liabilities, or the revenues and expenses; and
- Other companies in our industry may calculate their pro-rata interests differently, limiting the comparability of pro-rata information.

Because of these limitations, the supplemental details of assets and liabilities and supplemental details of operations should not be considered independently or as a substitute for our financial statements as reported under GAAP. We compensate for these limitations by relying primarily on our GAAP results and using the pro-rata details as a supplement.

The following non-GAAP measures, as defined in the Glossary of Terms, are commonly used by management and the investing public to understand and evaluate our operating results and performance:

- NAREIT Funds From Operations (NAREIT FFO): The Company believes NAREIT FFO provides a
 performance measure that, when compared year over year, reflects the impact on operations from
 trends in occupancy rates, rental rates, operating costs, acquisition and development activities,
 and financing costs. The Company provides a reconciliation of Net Income Attributable to Common
 Stockholders to NAREIT FFO.
- Net Operating Income (NOI): The Company believes NOI provides useful information to investors to measure the operating performance of its portfolio of properties. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to pro-rata NOI.
- Core Operating Earnings (previously Operating FFO): The Company believes Core Operating
 Earnings, which excludes certain non-cash and non-comparable items from the computation of
 NAREIT FFO that affect the Company's period-over-period performance, is useful to investors
 because it is more reflective of the core operating performance of its portfolio of properties. The
 Company provides a reconciliation of NAREIT FFO to Core Operating Earnings.

Disclosures

June 30, 2019

• Same Property NOI: The Company provides disclosure of NOI on a same property basis because it believes the measure provides investors with additional information regarding the operating performances of comparable assets. Same Property NOI excludes all development, non-same property and corporate level revenue and expenses. The Company also provides disclosure of NOI excluding termination fees, which excludes both termination fee income and expenses.

Regency Centers Reports Second Quarter 2019 Results

JACKSONVILLE, Fla. (August 1, 2019) – Regency Centers Corporation ("Regency" or the "Company") today reported financial and operating results for the period ended June 30, 2019.

Second Quarter 2019 Highlights

- For the three months ended June 30, 2019, Net Income Attributable to Common Stockholders ("Net Income") of \$0.31 per diluted share.
- Second quarter NAREIT Funds From Operations ("NAREIT FFO") of \$0.95 per diluted share, which includes a \$0.02 per share charge from one-time non-cash expenses.
- Year-to-date same property Net Operating Income ("NOI"), excluding termination fees, increased 2.1%, as compared to the same period in 2018, driven by Base Rent growth of 2.5%.
- As of June 30, 2019, the same property portfolio was 95.1% leased.
- On a trailing twelve months basis, rent spreads on comparable new and renewal leases were 19.8% and 6.9%, respectively, with total rent spreads of 8.9%.
- For the three months ended June 30, 2019, total leasing volume of approximately 1.9 million square feet of new and renewal leases, at blended rent spreads of 7.0%.
- As of June 30, 2019, a total of 23 properties were in development or redevelopment representing a total investment of approximately \$474 million.
- Subsequent to the quarter, Regency acquired The Pruneyard in Silicon Valley for a purchase price of approximately \$212.5 million.
- During the second quarter, Regency issued its annual Corporate Responsibility Report, highlighting the Company's accomplishments in key areas of environmental, social, and governance initiatives. The Company was also recently included in the S&P 500 ESG index and received a rating upgrade to A from MSCI.
- On August 1, 2019, Regency announced the transition of Martin E. "Hap" Stein, Jr. from Chairman and Chief Executive Officer to Executive Chairman, to be succeeded by Lisa Palmer as President and Chief Executive Officer effective January 1, 2020. As part of the Company's succession plan, Ms. Palmer will vacate her role as Chief Financial Officer, retaining her position as President, effective August 12, 2019, with Mike Mas assuming the position of Executive Vice President, Chief Financial Officer, at that time.
- On July 31, 2019, Regency's Board declared a quarterly cash dividend on the Company's common stock of \$0.585 per share.

"I am deeply gratified to work with the best professionals in the business who have been the cornerstone to Regency's ongoing success in building a wonderful company," said Martin E. "Hap" Stein, Jr., Chairman and Chief Executive Officer. "Through this seamless transition, I have no doubt that Lisa and the team will continue to execute on our strategic objectives and make even more progress on Regency's journey from good to great, while generating total returns of 8% to 10%."

Financial Results

Regency reported Net Income for the second quarter of \$51.7 million, or \$0.31 per diluted share compared to the Net Income Attributable to Common Stockholders of \$47.8 million, or \$0.28 per diluted share, for the same period in 2018. The Company reported NAREIT FFO for the second quarter of \$160.0 million, or \$0.95 per diluted share, compared to \$157.3 million, or \$0.93 per diluted share, for the same period in 2018. For the three months ended June 30, 2019, the Company's results included a negative impact of \$3.0 million, or \$0.02 per diluted share, from one-time non-cash expenses related to straightline rent reserves for tenants where it is no longer probable that those tenants will remain in occupancy for the duration of their current lease.

The Company reported Core Operating Earnings for the second quarter of \$152.4 million, or \$0.91 per diluted share, compared to \$150.5 million, or \$0.89 per diluted share, for the same period in 2018. Core operating earnings per share growth was 4.6% for the second quarter, when adjusted for the adoption of Accounting Standard Codification 842, *Leases*. The Company views Core Operating Earnings, which excludes certain non-recurring items as well as non-cash components of earnings derived from above and below market rent amortization, straight-line rents, and amortization of debt mark-to-market, as a better measure of business performance as it more closely reflects cash earnings and the Company's ability to grow the dividend.

Portfolio Performance

Regency's portfolio is differentiated in its overall outstanding quality, breadth and scale. The strength of the Company's merchandising mix, combined with placemaking elements and connection to its communities further differentiate Regency's high quality portfolio. Regency's national platform with 22 local market offices offers critical strategic advantages and positions the Company to achieve its strategic objective to average 3% same property NOI growth over the long term.

Second quarter same property NOI, excluding termination fees, increased 1.4% compared to the same period in 2018, which was primarily impacted by the Sears bankruptcy and timing of reconciliations. Year-to-date same property NOI, excluding termination fees, increased 2.1%, as compared to the same period in 2018, driven by Base Rent growth of 2.5%.

As of June 30, 2019, Regency's wholly-owned portfolio plus its pro-rata share of co-investment partnerships was 94.7% leased. The same property portfolio was 95.1% leased, which is an increase of 10 basis points sequentially and a decrease of 60 basis points from the same period in 2018, primarily driven by the Sears bankruptcy.

For the three months ended June 30, 2019, Regency executed approximately 1.9 million square feet of comparable new and renewal leases at blended rent spreads of 7.0%. Rent spreads on new and renewal leases were 6.9% and 7.0%, respectively. For the trailing twelve months, the Company executed approximately 6.9 million square feet of comparable new and renewal leases at blended rent spreads of 8.9%.

Portfolio Enhancement and Capital Allocation

Regency's capital allocation strategy enables the Company to benefit from a self-funding model, in which free cash flow is the source of funding, and supports the development and redevelopment program on

a leverage neutral basis. Regency's development and redevelopment platform is a critical strategic advantage for creating significant value for shareholders. Together with the sales of lower growth assets and equity when priced attractively, free cash flow also enables the Company to invest in high-growth acquisitions and share repurchases when pricing is compelling. This capital allocation strategy preserves Regency's pristine balance sheet and allows the Company to add value and enhance the quality of the portfolio on a net accretive basis.

Developments and Redevelopments

At quarter end, the Company had 23 properties in development or redevelopment with, estimated net project costs of approximately \$474 million. In-process developments and redevelopments were 89% leased and committed as of June 30, 2019, and are expected to yield an average return of 7.6%.

During the quarter, Regency started one ground-up development project and four redevelopment projects. The ground-up development project, Culver Public Market, is a 27,000 - square foot urban retail project located in the dynamic high-barrier-to-entry Culver City submarket of Los Angeles, California. The total project cost is approximately \$27 million at a projected 6.0% stabilized yield.

As previously reported, Regency started the generational redevelopment of The Abbot, located in the heart of Harvard Square in Cambridge, MA. The project will modernize and expand the iconic property offering flagship retail and office uses. The total project cost is approximately \$52 million at a projected incremental 9.3% stabilized yield.

Property Transactions

During the quarter the Company acquired 6401 Roosevelt in Seattle, WA for \$3.6 million. This multitenant retail building is adjacent to the Company's Whole Foods anchored operating property, Roosevelt Square.

Subsequent to quarter end, the Company acquired The Pruneyard, a 258,000 square foot center located in Silicon Valley for \$212.5 million at a 4.3% cap rate. The center is anchored by Trader Joe's and Marshalls and sits in close proximity to the West Valley's most affluent neighborhoods and technology employers. In addition to the retail portion, The Pruneyard also benefits from three adjacent office towers totaling 360,000 square feet and an adjacent 171-key hotel, which were not part of the transaction.

On a year-to-date basis, including The Pruneyard acquisition subsequent to the quarter end, the Company has closed on \$231.6 million of acquisitions and \$136.5 million of dispositions.

Balance Sheet

Regency benefits from favorable access to capital through the strength of its balance sheet, supported by conservative leverage levels with a Net Debt to EBITDA*re* ratio of 5.3x. This positions Regency to weather potential challenges and potentially profit from investment opportunities in the future.

Dividend

On July 31, 2019, Regency's Board declared a quarterly cash dividend on the Company's common stock of \$0.585 per share. The dividend is payable on August 22, 2019, to shareholders of record as of August 12, 2019.

Executive Leadership Changes

As reported concurrently with this release, Regency has announced the transition of Martin E. "Hap" Stein, Jr. from Chairman and Chief Executive Officer to Executive Chairman, effective January 1, 2020. Concurrent with this transition, Regency's Board of Directors is pleased to announce that Lisa Palmer will become President and Chief Executive Officer. As part of the Company's succession plan, Ms. Palmer will vacate her role as Chief Financial Officer, retaining her position as President, effective August 12, 2019, with Mike Mas assuming the position of Executive Vice President, Chief Financial Officer, at that time.

Additionally, to more accurately reflect their roles within the Company, Jim Thompson will become Executive Vice President, Chief Operating Officer, and Mac Chandler will become Executive Vice President, Chief Investment Officer, effective August 12, 2019.

2019 Guidance

The Company has updated certain components of its 2019 earnings guidance. Guidance for NAREIT FFO is unchanged at the midpoint. The NAREIT FFO range has been updated to reflect the one-time charge of \$3.0 million, or \$0.02 per diluted share, related to the one-time non-cash straight-line rent charge. Please refer to the Company's second quarter 2019 supplemental information package for a complete list of updates.

2019 Guidance

All figures pro-rata and in thousands, except per share data

	Current Guidance	Previous Guidance

Non-GAAP Disclosure

The Company uses certain non-GAAP performance measures, in addition to the required GAAP presentations, as we believe these measures improve the understanding of the Company's operational results. We manage our entire real estate portfolio without regard to ownership structure, although certain decisions impacting properties owned through partnerships require partner approval. Therefore, we believe presenting our pro-rata share of operating results regardless of ownership structure, along with other non-GAAP measures, makes comparisons of other REITs' operating results to the Company's more meaningful. We continually evaluate the usefulness, relevance, limitations, and calculation of our reported non-GAAP performance measures to determine how best to provide relevant information to the public, and thus such reported measures could change.

NAREIT FFO is a commonly used measure of REIT performance, which the National Association of Real Estate Investment Trusts ("NAREIT") defines as net income, computed in accordance with GAAP, excluding gains on sale and impairments of real estate, net of tax, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Regency computes NAREIT FFO for all periods presented in accordance with NAREIT's definition in effect during that period. Effective January 1, 2019, the Company prospectively adopted the NAREIT FFO White Paper – 2018 Restatement ("2018 FFO White Paper"), and elected the option of excluding gains on sale and impairments of land, which are considered incidental to the Company's main business. Prior period amounts were not restated to conform to the current year presentation, and therefore are calculated as described above, but also include gains on sales and impairments of land. Many companies use different depreciable lives and methods, and real estate values historically fluctuate with market conditions. Since NAREIT FFO excludes depreciation and amortization and gains on sales and impairments of real estate, it provides a performance measure that, when compared year over year, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, acquisition and development activities, and financing costs. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP. Thus, NAREIT FFO is a supplemental non-GAAP financial measure of the Company's operating performance, which does not represent cash generated from operating activities in accordance with GAAP; and, therefore, should not be considered a substitute measure of cash flows from operations. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to NAREIT FFO.

Core Operating Earnings is an additional performance measure that excludes from NAREIT FFO: (i) transaction related income or expenses; (ii) gains or losses from the early extinguishment of debt; (iii) certain non-cash components of earnings derived from above and below market rent amortization, straight-line rents, and amortization of mark-to-market of debt adjustments; and (iv) other amounts as they occur. The Company provides a reconciliation of Net Income to NAREIT FFO to Core Operating Earnings.

The Company has published forward-looking statements and additional financial information in its second quarter 2019 supplemental information package that may help investors estimate earnings for 2019. A copy of the Company's second quarter 2019 supplemental information will be available on the Company's website at www.RegencyCenters.com or by written request to: Investor Relations, Regency Centers Corporation, One Independent Drive, Suite 114, Jacksonville, Florida, 32202. The supplemental information package contains more detailed financial and property results including financial statements, an outstanding debt summary, acquisition and development activity, investments in partnerships, information pertaining to securities issued other than common stock, property details, a significant tenant rent report and a lease expiration table in addition to earnings and valuation guidance assumptions. The information provided in the supplemental package is unaudited and there can be no assurance that the information will not vary from the final information in the Company's Form 10-Q for the quarter ended June 30, 2019. Regency may, but assumes no obligation to, update information in the supplemental package from time to time.

About Regency Centers Corporation (NASDAQ: REG)

Regency Centers is the preeminent national owner, operator, and developer of shopping centers located in affluent and densely populated trade areas. Our portfolio includes thriving properties merchandised with highly productive grocers, restaurants, service providers, and best-in-class retailers that connect to our neighborhoods, communities, and customers. Operating as a fully integrated real estate company, Regency Centers is a qualified real estate investment trust (REIT) that is self-administered, self-managed, and an S&P 500 Index member. For more information, please visit RegencyCenters.com.

###

Forward-looking statements involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements. Please refer to the documents filed by Regency Centers Corporation with the SEC, specifically the most recent reports on Forms 10-K and 10-Q, which identify important risk factors which could cause actual results to differ from those contained in the forward-looking statements.

⁽¹⁾ Effective interest rates are calculated in accordance with US GAAP, as of the quarter end, and include the impact of debt premium/(discount) amortization, issuance cost amortization, interest rate swaps, and facility and unused fees. (2) The interest rate on the underlying debt is LIBOR+0.95%, however, interest rate swaps are in place to fix the interest rate on the entire \$300 million balance at 2.774% through maturity. (3) The interest rate on the underlying debt is LIBOR + 0.95%, with an interest rate swap in place to fix the interest rate on the entire \$265 million balance at 2.00% through maturity. (4) Rate applies to drawn balance only. Additional annual facility fee of 0.15% applies to entire \$1.25 billion line of credit. Maturity is subject to two additional six-month periods at the Company's option.

Summary of Select Operating Properties with Near Term Redevelopment

June 30, 2019 (in thousands)

Select Operating Properties wi	th Near Term Redevelo	pment*				
	Madad	Shopping	0/ 1 1	<u>Estimated</u>	REG's Estimated Incremental Project	
Shopping Center Name Hancock	<u>Market</u> Austin, TX	Center GLA 410	<u>% Leased</u> 54%	<u>Project Start</u> 2020/2021	<u>Costs</u> \$35,000 - \$45,000	Transformative redevelopment of former Sears space into retail and non-retail uses, including potential expansion of HEB. Also, redevelopment of Sears auto center to accommodate strong demand for retail and non-retail in this desirable infill market.
Gateway Plaza at Aventura	Miami, FL	30	0%	2020/2021	\$10,000 - \$15,000	Located on Biscayne Boulevard in a vibrant sub-market of Miami, will tear-down and rebuild or redevelop existing building (prior Babies R Us), with potential to bring a specialty grocer to the center and densify with addition of retail.
Westwood Shopping Center	Bethesda, MD	102	99%	2019/2020	\$110,000 - \$125,000	Grocery anchored shopping center transformed into best-in-class mix of uses with retail anchored by Giant, multi-family, and townhomes. Partnering with best-in-class residential developers for construction of multi-family and townhomes that will start in a later phase. Estimated incremental project costs include Regency's non-retail co-investment.
Serramonte Phase II	San Francisco, CA	1,076	97%	2019/2020	\$50,000 - \$60,000	Addition of new retail that will augment the evolving merchandising mix, complemented by development of new hotel by a best-in-class developer, at this A mall located just outside of San Francisco in Daly City.
Town and Country Center	Los Angeles, CA	230	40%	2020/2021	\$20,000 - \$30,000	Redevelopment of vacant former K-Mart box with new retail and 325 mid-rise apartments on a ground lease. Costs reflect incremental investment for retail redevelopment. Regency's total investment, incorporating acquisition costs at an anticipated total pro-rata ownership of 35% is \$90M at a return of 6%+. Estimated investment from residential developer, outside of Regency's investment related to the retail portion, is expected to be in excess of \$100M.
Costa Verde	San Diego, CA	179	86%	2021/2022	\$175,000 - \$200,000	Large-scale redevelopment of existing shopping center with addition of retail, office, hotel and parking garage, adjacent to new transit station.
Estimated Incremental Stablized	Yield				+/- 7.0%	

^{*}Selection reflects material under earning operating properties with near term redevelopment that is within approximately 24 months. Selection does not incorporate all pipeline opportunities. Note: Scope, economics and timing of development and redevelopment program and projects could change materially from estimates provided.

	 Low	High
Net income attributable to common stockholders	\$ 1.56	1.60
Adjustments to reconcile net income to NAREIT FFO:		
Depreciation and amortization	2.41	2.41
Provision for impairment	0.07	0.07
Gain on sale of operating properties	 (0.23)	(0.23)
NAREIT Funds From Operations	\$ 3.81	3.85

Glossary of Terms

June 30, 2019

<u>Development Completion</u>: A property in development is deemed complete upon the earliest of: (i) 90% of total estimated net development costs have been incurred and percent leased equals or exceeds 95%, or (ii) the property features at least two years of anchor operations, or (iii) three years have passed since the start of construction. Once deemed complete, the property is termed a Retail Operating Property the following calendar year.

<u>Fixed Charge Coverage Ratio</u>: Operating EBITDA*re* divided by the sum of the gross interest and scheduled mortgage principal paid to our lenders plus dividends paid to our preferred stockholders.

NAREIT Funds From Operations (NAREIT FFO): NAREIT FFO is a commonly used measure of REIT performance, which the National Association of Real Estate Investment Trusts ("NAREIT") defines as net income, computed in accordance with GAAP, excluding gains on sales and land impairments of real estate, net of tax, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Regency computes NAREIT FFO for all periods presented in accordance with NAREIT's definition in effect during that period. Effective January 1, 2019 the Company prospectively adopted the NAREIT FFO White Paper - 2018 Restatement ("2018 FFO Whitepaper"), and elected the option of excluding gains on sale and impairments of land, which are considered incidental to the Company's main business. Prior period amounts were not restated to conform to the current year presentation, and therefore are calculated as described above, but also include gains on sales and impairments of land. Many companies use different depreciable lives and methods, and real estate values historically fluctuate with market conditions. Since NAREIT FFO excludes depreciation and amortization and gains on sale and impairments of real estate, it provides a performance measure that, when compared year over year, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, acquisition and development activities, and financing costs. This provides a perspective of the Company's financial performance not immediately apparent from net income determined in accordance with GAAP. Thus, NAREIT FFO is a supplemental non-GAAP financial measure of the Company's operating performance, which does not represent cash generated from operating activities in accordance with GAAP; and, therefore, should not be considered a substitute measure of cash flows from operations. The Company provides a reconciliation of Net Income Attributable to Common Stockholders to NAREIT FFO.

Net Operating Income (NOI): The sum of base rent, percentage rent, recoveries from tenants, other lease income, uncollectible lease income, and other property income, less operating and maintenance, real estate taxes, ground rent, and provision for doubtful accounts. NOI excludes straight-line rental income and expense, above and below market rent and ground rent amortization, tenant lease inducement amortization, and other fees. The Company also provides disclosure of NOI excluding termination fees, which excludes both termination fee income and expenses.

Non-Same Property: A property acquired, sold, or a Development Completion during either calendar year period being compared. Non-retail properties and corporate activities, including the captive insurance program, are part of Non-Same Property.

Operating EBITDA*re*: NAREIT EBITDA*re* is a measure of REIT performance, which the NAREIT defines as net income, computed in accordance with GAAP, excluding (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains on sales of real estate; (v) impairments of real estate; and (vi) adjustments to reflect the Company's share of unconsolidated partnerships and joint ventures. Operating EBITDA*re* excludes from NAREIT EBITDA*re* certain non-cash components of earnings derived from above and below market rent amortization and straight-line rents. The Company provides a reconciliation of Net Income (Loss) to Operating EBITDA*re*.

<u>Core Operating Earnings</u>: An additional performance measure used by Regency as the computation of NAREIT FFO includes certain non-comparable items that affect the Company's period-over-period performance. Core Operating Earnings excludes from NAREIT FFO: (i) transaction related income or expenses (ii) gains or losses from the early extinguishment of debt; (iii) certain non-cash components of earnings derived from above and below market rent amortization, straight-line rents, and amortization of mark-to-market of debt adjustments; and (iv) other amounts as they occur. The Company provides a reconciliation of NAREIT FFO to Core Operating Earnings.

Property In Development: Properties in various stages of development and redevelopment including active pre-development activities.

Retail Operating Property: Any retail property not termed a Property In Development. A retail property is any property where the majority of the income is generated from retail uses.

Same Property: Retail Operating Properties that were owned and operated for the entirety of both calendar year periods being compared. This term excludes all developments and Non-Same Properties.
